DETAILED ACTION

Claim Objections

1. Claims 50, 55 & 59 are objected to because of the following informalities:

The phrase "a well region formed to contain one of the source and the drain" is supported by the disclosure. If the well region contains the drain, **a detection device coupled to the drain by a signal path** in line 9 is not supported by the disclosure & drawing. The examiner suggests a well region formed to contain the source & an implant formed in the substrate to extend between the well region and the drain.

Appropriate correction is required.

Dependent claims 51-54, 56-58 & 60 are objected because each includes the limitations of independent claims 50, 55 & 59.

2. Claims 1-18 are allowed.

3. This application is in condition for allowance except for the above formal matters:

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
